

2589-2566bc

KHUFU (CITOPS) was Pharaoh

He built Great Pyramid at GIZA

~~and the SPH/NX~~ and the SPH/NX.

He composed sacred Books. His father was SNEFRU

Great Pyramid 481 ft (original height)

Present height 451 ft. Angle of slope $51^{\circ} 52'$

4 sides oriented to Cardinal Points; Length of

sides 755 ft \pm 8 in. 13 acres of ground

2,300,000 blocks ea about 2.5 tons - max 15 tons

Giza southwest of modern Cairo. His master
builder was HEMEN. The Great Pyramid underwent
several changes in internal arrangements
10 yrs to build the Causeway from valley temple to the
mortuary temple: 20 yrs to build pyramid, &
self: cost 1600 silver talents (7.5 million at
present scrap silver price. We do not know how it
was built. In 1934 they found a 141 ft boat under
4 blocks of cedar wood
